INNOVATION IS OUR  
IDENTITY

**Elimco Aerospace** is reference company since 2003 in the fields of **ELECTRICAL AND ELECTRONIC ENGINEERING**, equipment **development** and **manufacturing** for interconnexions systems (harnesses), cockpit control units, on board sensors, flight simulators, test benches, ground systems – communications, air and ground support, operating in the defense and civil sectors.

## ON BOARD SYSTEMS

## GROUND SUPPORT EQUIPMENTS

## SUPPORT SERVICES

### PRODUCTS

### ENGINEERING

### TECHNICAL SUPPORT ASSEMBLY LINES

### OUTSOURCING SERVICES, ING, FAL SUP

- On board wiring harnesses.
- Cockpit Control Units.
- On board Sensorization.
- Upgrade platforms.
- Operation consoles integration.

- Test Systems Integration.
- Instrumentation.
- Telemetry | FTI.
- Ground Equipment Support (GSE).
- Customized solutions
- HW / SW simulators
- System maintenance

- Production engineering.
- Improvements, Retrofits.
- Manufacturing and Quality Training.
- Robotics and Control.
- On board Electronics.
- Industrial design.

- Electrical installation in FAL.
- Operations Supervision.
- ON SITE Programs support.
- Program Management
- Retrofits
- Integrated Logistic Support
